[*Provincial Economic Conference*, 1934.]

No. F. 16 (1)-F./34.—During the past year the grave problems arising out of the depression in the prices of and demand for primary commodities and in particular the effect on the economic condition of the agricultural classes in India have been the subject of close and anxious consideration by the Government of India and provincial Governments. These problems relate not merely to the ability of the ryot to meet his dues to Government or to his landlord and his liabilities to his creditors while maintaining a tolerable standard of living, but involve wider issues covering the whole field of agricultural economic development.

2. The Government of India accordingly suggested to the provincial Governments that the best method of approaching the problems would be to convene a provincial economic conference which could cover, however generally at first, the whole field so as to ensure that the various aspects received adequate consideration. There have in the past been various committees of enquiry, conferences and discussions, but these, it was felt, had not met with full success because they had necessarily to deal with particular aspects of the question alone.

3. As the provincial Governments agreed as to the importance and urgency of joint discussion, a conference was held in Delhi from the 3rd to the 6th of April 1934. The following provincial representatives attended:—

4. The object of the Government of India in proposing the conference was not in any way to trench on the functions of local Governments in matters which under the existing constitution are under their control, but to see whether by mutual consultation any common plan of action could be arrived at, and whether the central Government could assist either by providing a clearing house for information or arranging for separate discussions, or possibly by helping to finance activities which would lead to productive results.

5. The first subject which came before the conference was that of agricultural indebtedness. Even before the present economic depression the extent of agricultural indebtedness was recognized as one of the greatest problems with which India was confronted and it has obviously acquired a new intensity and significance as a result of the fall in prices. This has been recognized by all provincial Governments, and in several provinces legislation has been passed or is under consideration dealing with various aspects of the problem. The primary object of the conference in this matter was to provide an opportunity for an exchange of ideas between provinces and to obtain impressions in the light of the most recent information and experience both as to the prevailing conditions and as to the practical results of such measures as have been already adopted. These discussions proved to be of great value, but it must be emphasized that they are to be regarded only as a preliminary review conducted for the purpose of elucidating lines for further enquiry and action.

The problem was considered in all its aspects, first the problem of existing indebtedness and the possibility of scaling down debts, secondly, the problem of finance in connexion with such schemes and thirdly, the problem of providing suitable credit machinery for the future and restricting usurious practices. In connexion with the second and third problems consideration was given to the possibility of establishing land mortgage banks and to the functions of the agricultural credit department of the Reserve Bank. These matters are referred to in the succeeding paragraphs, but otherwise, in view of the nature of the discussions, no attempt is made in this resolution to formulate final or precise conclusions.

The general view of the conference was that the diversity of the conditions of the agricultural classes in India was so great, both in respect of land tenures and general economic status, that any legislative measures to afford relief must be primarily provincial; but that at the same time it was highly desirable that the various local Governments should know what other local Governments were doing to meet the situation and that there should be a regular exchange of information on this matter. The Government of India are considering the procedure most likely to effect this purpose in an expeditious manner.

6. *Land Mortgage Banks.*—The conference examined the possibility of developing land mortgage banks in connection with the aspects of the problems noted above. The discussions made it clear that the essential problem in connection with such institutions in India lies in the realisation of their security—land. The restrictions on the transferability of land, or the rights over land, and the consequent expense, uncertainty, and delay in obtaining and executing decrees constitute real obstacles to the development of such banks. Conditions in this respect vary greatly from province to province, and the representatives of several provinces were quite definite in their opinion that the dangers of tampering with the land laws and increasing the facilities for the alienation of land were so great as to outweigh the advantages for improving the character of the security on which credit could be obtained. Whatever the possibilities of future development may be, it is clear that, in view of these opinions and the differences in conditions, the responsibility for policy as regards establishing land mortgage banks must rest with the provincial Governments. The Government of India will be very ready to assist by giving their technical advice in regard to provincial schemes or otherwise, and will see that the Reserve Bank is organized to do so in the future, but it is for the provincial Governments to face the fundamental issue, and to decide, if they desire to have such institutions, how far it is possible to provide them with a realisable security as a base for their loans.

7. *Agricultural Credit Department of the Reserve Bank.*—In discussing the improvement of credit facilities for agricultural operations the functions of the agricultural credit department of the Reserve Bank came before the conference. This department will of course be in contact with all agencies operating for agricultural credit—joint stock banks, indigenous bankers or money-lenders, and co-operative credit societies. The discussions at the conference concentrated attention on the last-mentioned agency. They disclosed the fact that in most provinces the co-operative movement was in difficulties and that in several cases the difficulties gave cause for anxiety. Whatever may be the reasons for this position, the practical fact which for the present purpose requires emphasis is that, if the agricultural credit department of the Reserve Bank is to function usefully in relation to agricultural requirements it will have to avail itself to a considerable extent of the provincial co-operative movement. In order to put the board of the bank into a position to take early decisions for the inauguration of this department the Government of India have decided to appoint an expert officer on special duty to examine and report what should be the most suitable organization, and in what manner it may most effectively work in with the co-operative banks and other agencies for advancing credit to the agriculturists and landowners. The Government of India have, for this special work, appointed Mr. M. L. Darling, I.C.S., an officer who has had prolonged practical experience of co-operative and agricultural credit in the Punjab, and who has also studied the co-operative movement in other countries. Mr. Darling will take up his duties early in June.

8. On the whole question of agricultural indebtedness the general conclusion of the conference was that while measures for dealing with debts, in the form of special legislation or otherwise varying with the needs and the conditions of each province might be necessary, such measures were essentially temporary expedients and palliatives, and that in the absence of changes either in the mental outlook of the agriculturist or in his economic opportunities, they were likely to result merely in fresh debts being incurred from the original creditors, so that the position would speedily revert to its original state. Such measures therefore, if they are to serve a really useful purpose, must be supplemented by constructive action of a more permanent character, embodying a policy of economic and social development. This obviously raised very wide issues. It was not possible within the time available fully to explore all these aspects of the question (especially such important points as the part that education and rural betterment schemes should play in modifying the economic outlook of the ryot) but the discussions served to clear the ground and indicate possible methods by which the various problems could be more fully examined. There was no formal agenda and provincial Governments were invited to bring forward for discussion any matter which they considered relevant and important. The following paragraphs deal with certain lines of action in the economic field on which definite conclusions were reached.

9. *Marketing.*—The discussion of this subject resulted in general agreement that of all practicable measures for improving economic conditions, an intensive programme to develop marketing facilities for agricultural products (both crops and animal products) offers the best immediate prospect of substantial results. The Government of India consider that the discussions at the conference have amply demonstrated the necessity for vigorous action, not merely with a view to promoting the production of particular commodities, but even more with a view to safeguarding India's future in the face of intensified outside competition which is being felt as a result of modern scientific and economic developments in other competing countries. The discussions centred on the following main problems:—

(a) How can the demand, both internal and external, for each individual commodity be promoted?

(b) How can the gap between the prices paid by the consumer and those received by the producer be reduced and the agriculturist's share of the final price increased?

(c) How can the agriculturist be protected from those seasonal slumps in the prices of commodities which are occasioned by the fact that whilst the consumption is spread more or less evenly over the year, the harvesting and marketing are concentrated in a relatively short period?

(d) How can the agriculturist be most cheaply and safely financed (i) for the production, and (ii) for the marketing of his produce?

The action to be taken to deal with the above problems includes propaganda and the supply of information in external markets regarding Indian products; the grading, sorting and bulking of the main staple products;

special market organizations for perishable commodities ; information to Indian producers of consumers' requirements both in India and abroad; the planning of production on the basis of quality and demand; the establishment and development of regulated markets; the undertaking of market surveys for the purpose of developing a common plan throughout India; the establishment of properly organized 'futures' markets, commodity exchanges, and ware-houses.

As regards the organizations which should be set up to secure the objects noted above, the Government of India consider, in agreement with the general conclusions reached at the conference, that in regard to each individual commodity (or group of commodities) marketing will have to be studied from a number of aspects, and that, while Government assistance will be required for the initial steps, the ultimate objective to be aimed at will probably be to establish special 'commodity committees' (on the lines of the Indian Central Cotton Committee) each charged with the improvements of the marketing of a particular commodity or group of related commodities.

The programme provisionally approved at the conference included the following initial steps :—

(1) The appointment of a central marketing officer by the Government of India ;

(2) The appointment of provincial marketing officers ;

(3) The inauguration of provincial marketing surveys ;

(4) The appointment of special committees for staple crops starting with oilseeds and tobacco ;

(5) Work on grade standards under the direction of the Imperial Council of Agricultural Research.

The Government of India have decided to proceed on these lines. The first step—the appointment of a central marketing officer—has already been taken. The officer selected has just arrived in India and the further steps noted above will be elaborated after discussion with him and in consultation with provincial Governments. The question of providing the necessary funds needs further discussion, but the Government of India are prepared to recognize that this programme is a matter of all-India importance and to provide the bulk of the expenditure from their own resources.

The steps outlined above have been stated with primary reference to the marketing of crops, but the marketing surveys will also include animal husbandry products. It is accordingly proposed that the central marketing officer should be assisted by a deputy and two assistants to deal with animal husbandry products.

Further, as regards dairy products in particular, in order to study the problems involved in their preparation for wider markets it is proposed to supplement the Imperial Institute of Animal Husbandry and Dairying at Bangalore by the addition of a Dairy Industry Institute which will include a laboratory for carrying out research on the physical and chemical properties of Indian milk and its reactions to the various forms of processings and transport under Indian conditions.

There was also general support at the conference for the establishment of provincial dairying committees to study and develop local marketing arrangements. The Government of India is addressing local Governments on this matter.

10. *Crop Planning.*—An essential complement to any programme for marketing is the regulation of production in adjustment to the demand. The discussions initiated by the Governments of Madras and the Punjab on rice and wheat disclosed the danger of serious relative over-production of these important crops having regard to the world position, and, as regards wheat, as the result of the rapid opening up of the areas irrigated by the Sukkur Barrage. On the other hand it is to be remembered that the demand for other crops, or for products of animal husbandry in substitution for crops, may be relatively more favourable, and in particular that the Ottawa preferences have created new opportunities for Indian produce in the British market (notably for linseed, barley, etc.) of which it is vitally important that India should take full advantage. The Government of India consider that it is a matter of most urgent importance that all possible steps should be taken to co-ordinate a plan of agricultural production for India as a whole, and they have therefore decided, in agreement with the conclusions reached in these discussions, to propose to the Provincial Governments that a conference shall be held at the earliest possible date of provincial Directors of Agriculture and land revenue officers to discuss what measures can be taken in this direction. It is important that such measures as are immediately possible should be taken before the sowing season for the next cold weather.

11. *Indian Trade Commissioners.*—Among plans for the development of markets for Indian products it should also be recorded that the Government of India have now decided actively to resume the programme for the appointment of Indian trade commissioners in foreign countries, which had been temporarily suspended as part of the economy campaign.

12. *Capital Programme.*—As a means of improving the economic equipment of the country, and incidentally of increasing purchasing power by distributing emp oyment during this period of depression, the conference also considered the scope for central expenditure on public works of various kinds. The present occasion is particularly opportune for such a policy, in view of the fact that money can now be borrowed at unusually low rates and that land, labour and material, etc., are much cheaper than they were a few years ago. A general review was accordingly undertaken of the possibilities in this direction. The review covered a wide field : irrigation, both by canals and tube wells, the reclamation of water-logged areas, and the prospects of electric power schemes in various provinces were discussed and the results compared. Particular attention was directed to road development and the view was generally accepted that if, in the terms of the Road Resolution, which has now been sanctioned by the central Legislature, the grants to provinces from the Road Fund can be utilized for the service of loans raised for the construction of roads and for the maintenance of roads so constructed, this will be a great inducement for the provincial Governments to put forward comprehensive plans. It was recognized that the main initiative in the matter of capital expenditure must come from the provinces because most schemes will be in respect of provincial subjects, and provincial Governments have been asked to supply, as early as possible, forecasts of those schemes which they consider will be in a broad sense productive. The present juncture, when there are signs that the weakening processes of increasing economic depression have been checked, may provide an opportunity when a comparatively small stimulus in the form of capital expenditure by Government might, by increasing employment and consequently consumption, have far-reaching effects. On the other hand, hastily prepared schemes may lead to very considerable losses, the burden of which will have to be borne by the tax-payer of the future, so that the preparatory work must not be scamped. For this reason it is desirable that the preliminary forecasts should be prepared as soon as possible so that the range of possible expenditure may be determined without unduly delaying the necessary detailed preparation of each scheme.

13. *Industrial Research.*—As the attention of the conference was primarily concentrated on agricultural problems, the main lines of Government's policy for the encouragement of industry by means of protection and otherwise were not fully discussed. The vital importance of this side of economic development was of course fully recognized both for its own sake and as a means of improving the home market for agricultural products.

At the same time the development of cottage industries as a supplement to agricultural operations was considered.

Special attention was given to industrial research and the question was discussed of establishing a central organization for this purpose, on the lines of the Imperial Council of Agricultural Research. The general feeling of the provincial representatives was that the most immediate need was for a central clearing house of industrial intelligence which could keep abreast of industrial developments, both in India and other countries, and be in a position to give information and advice to industrialists and persons seeking industrial openings. The functions of such an institution might be somewhat as follows :—

(1) The collection and dissemination of industrial intelligence.

(2) Collaboration with provincial Directors of Industries and industrialists in all matters relating to industrial research.

(3) Publication at intervals of bulletins relating to industrial research and other matters connected with industrial development.

(4) Assistance to industrialists in India by giving advice and making suggestions as to the directions in which research should be undertaken.

(5) To collaborate with the various organizations of the central and local Governments with a view to ensuring that specifications prepared or issued by them provide as far as possible for industrial standardization.

(6) To assist in the organization of industrial exhibitions in India.

The officer at the head of such an institution would also be charged with the duty of organizing future industries conferences.

The Government of India have decided to establish a central bureau on the above lines, and in order to give it an essentially practical character, and to ensure that it shall keep in close contact with industrial markets and current business it is proposed that the bureau should be attached to the Indian Stores Department, the establishment of which has already had a very marked effect in promoting the development of Indian industries.

While a plan on these lines seems likely to meet the most immediate practical requirements, the Government of India do not fail to recognize that further public assistance for the promotion of industrial research may be necessary. Occasions may arise when *ad hoc* grants to some other institutions for research on a special problem may be required, while in the case of one particular industry—the sugar industry—they have already acknowledged the need for the establishment, with Government support, of a central research institute. In this connexion it may also be recorded that the Government of India have decided to give a grant for sericultural research, and another grant for the encouragement of the hand loom industry. The experience gained from the working of the Central Intelligence Bureau described above may indicate what are the needs for further steps in the way of industrial research.

14. *Economic Surveys and Statistics.*—In this connexion the Government of India took advantage of the presence of the provincial representatives to discuss with them the report by Dr. Bowley and Mr. Robertson on a scheme for an economic census of India with special reference to a census of production and the reorganization of statistics. As that report had only just been received and as the Government of India had consequently not had the opportunity to study it, no definite decisions were reached and the report will be dealt with separately. The general opinion was, however, recorded that an improvement of the organization for the collection and distribution of economic information was urgently desirable and that for the formulation of an economic policy a reliable survey of existing conditions was necessary. It was noted in particular that the recent restoration of inland rail-borne statistics had been of the greatest possible value to provincial Governments in dealing with the problems connected with their crops and particularly to the Punjab in respect of wheat. In this connexion the steps taken by various provincial Governments to set up advisory economic boards or boards of economic enquiry were discussed and the results compared.

15. *Conclusion.*—The steps covered by the decisions noted above are to be regarded as initiating a co-ordinated policy for economic improvement, while the conference itself has special significance as a recognition of the fact that for the proper development of such a policy close co-operation between the central and provincial Governments is necessary. The Government of India wish to put on record their conviction that the conference has served a very useful purpose in enabling them to consider the whole range of vitally important problems in the economic sphere, and to express their thanks to the provincial Governments for sending members of their Governments to represent them at such short notice.

NOTIFICATION.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATIONS TO BE HELD IN SEPTEMBER AND NOVEMBER 1934.

Candidates for University Examinations are required to observe the following instructions very carefully:—

1. Silence should be maintained in the examination room.
2. Candidates should take their places in the examination hall at least five minutes before the time fixed for distributing the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious disease of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each answer book. Failure to write their register numbers may involve the rejection of answer papers.
4. Candidates are not allowed to exceed the time assigned to a paper.
5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners, should they do so their answers will not be valued and their conduct will be reported to the Syndicate for disciplinary action.*

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, blotting pad, cardboard, manuscript, or paper of any description and from making use of any of these whether introduced into the room by themselves or by any one else; from communicating with or copying from each other, and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be summarily sent out of the room forthwith, and his conduct will be reported to the Registrar. Such a candidate stands the risk of having all his answer papers for the examination for which he has appeared rejected by the Syndicate and of being debarred from sitting for the University examinations for such period as the Syndicate may decide.

The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in Mathematics, Physics, Chemistry, Chemical Technology and Geography of the Intermediate, B.A., B.Sc., B.A. (Honours), B.Sc. (Honours) and Pre-Registration examinations only. Candidates should not bring into the Examination Hall their own copies.

9. Candidates for examination in Science subjects shall submit their laboratory note-books to the Examiners concerned on the first day of the practical examination. Each of the candidates taking Botany as the main subject for B.Sc. Degree examination must submit at the practical examination his laboratory note-book, a collection of the named plants collected and preserved by himself and a record of the field work. The candidates should get back the laboratory note-books at the close of the examination.

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested to the instructions, regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Papers must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. When candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.

13. Candidates sitting for the examinations at the different centres should apply to the Chief Superintendent of the respective centre for their hall tickets three days before the commencement of the respective Examinations. *Any particulars noted in the hall ticket differing from those given in the application for the examination should be immediately reported to the Chief Superintendent by the concerned candidate.*

14. *No college student will be allowed to select a centre for his examination other than that in which the college he studies is situated, except for satisfactory reasons and on the recommendation of the Principal of his college.*

15. *A candidate who underwent his course of study in an affiliated college but appears for the examination a second or a subsequent time, having failed previously, should also select the same centre in which the college he studied is situated, except under extraordinary circumstances.*

16. *Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendents of such centres as to their identity. They shall also be required to place their signatures upon the identification certificates produced by them before the Chief Superintendents of the respective centres. The tenderer will however base his lump sum tender on this schedule of quantities.

He should quote specific rates for each item in the schedule and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words.

The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

1931 ലെ മതിരാശി മോട്ടർവണ്ടി നികുതി ആക്ട് പ്രകാരം മോട്ടർ വണ്ടികളിന്മേൽ ചുമത്തിയ സംസ്ഥാനിക നികുതിവക വരു

ചുങ്കം വിചാരിച്ചതിലും എത്രയോ കുറവായിരിക്കുന്നു. ഈ സംഗതി വകയ്ക്കും തദ്ദേശ യോഗങ്ങൾ ചുമത്തിവസൂലാക്കിയ ചുങ്കങ്ങൾ എടുത്തുകളഞ്ഞതിനാലും അവയുടെ ധനസ്ഥിതിക്കു വലിയൊരു ന്യൂനത ഉണ്ടായിട്ടുണ്ട്. തദ്ദേശ യോഗങ്ങളുടെ വരവിലുള്ള ഈ നഷ്ടം പരിഹരിപ്പാനാവശ്യമായ സഹായധനങ്ങളെപ്പറ്റി സൂക്ഷ്മമായി അന്വേഷിച്ചതിനു ശേഷം ഗവന്മെണ്ട് മുനിസിപ്പാൽ പ്രദേശങ്ങളിലും ലോക്കൽ ഫണ്ട് പ്രദേശങ്ങളിലും ഉള്ള മോട്ടാർ വണ്ടികളല്ലാത്ത വണ്ടികളിന്മേലും മൃഗങ്ങളിന്മേലും പണ്ട് ചുമത്തിയിരുന്ന ചുങ്കങ്ങൾ പുനരുദ്ധരിപ്പാനായി നിയമം ഉണ്ടാക്കുവാൻ തീർച്ചയാക്കിയിരിക്കുന്നു. മുനിസിപ്പാൽ പ്രദേശത്തു വെച്ചിരിക്കുന്നതും മോട്ടാർ വണ്ടികളല്ലാത്തതും ആയ വണ്ടികളിന്മേൽ മുനിസിപ്പാൽ സഭകൾ ഇപ്പോൾ ഒരു നികുതി ചുമത്തിവരുന്നുണ്ട്. എന്നാൽ ഇങ്ങിനെയുള്ള വണ്ടികളെ മുനിസിപ്പാൽ അതിർത്തികൾക്കു പുറമെ നിർത്തി അവയുടെ ഉടമസ്ഥന്മാർ മേല്പറഞ്ഞ നികുതി പലപ്പോഴും കൊടുക്കാതെ കഴിക്കുകയാണ് ചെയ്യുന്നതു്. ചുങ്കങ്ങൾ വീണ്ടും നടപ്പിൽ വരുത്തിയാൽ ഇപ്രകാരം നികുതികൾ കൊടുക്കാതെ കഴിക്കുന്നതും ഇല്ലായ്മ ചെയ്യാവുന്നതാണ്.

ചുങ്കങ്ങൾ തദ്ദേശ യോഗങ്ങളുടെ ആവശ്യാനുസരണം ചുമത്തുന്നതാണ്. എന്നാൽ ചുങ്കങ്ങൾ പുനഃസ്ഥാപിക്കുന്നതു ഗവന്മെണ്ടിന്റെ കാര്യമായ നിയന്ത്രണത്തിനു കീഴ്പെട്ടായിരിക്കേണമെന്നാണ് വെച്ചിട്ടുള്ളതു്. ചുങ്കങ്ങൾ ഏതേതു സ്ഥലങ്ങളിൽ വെച്ച് വസൂലാക്കാമെന്ന് ഗവന്മെണ്ട് സമ്മതിക്കേണ്ടതാവശ്യമാണ്. വസൂലാക്കുന്ന നിരക്കുകൾ ഗവന്മെണ്ട് നിർണ്ണയിക്കുന്ന അതിരിൽ കവിയരുതെന്നും നിബന്ധനയുണ്ട്. ചുങ്കങ്ങൾ വക വരവുകളും മോട്ടാർ വണ്ടികളിന്മേലുള്ള സംസ്ഥാന നികുതിവക വരവുകളിൽ നിന്നു തദ്ദേശ യോഗങ്ങൾക്കു കൊടുക്കുന്ന അംശദായവും നിരത്തുകൾ, പാലങ്ങൾ മുതലായതു ഉണ്ടാക്കുകയും വെച്ചുപോറ്റുകയും ചെയ്യുന്നതിനല്ലാതെ മറ്റു ആവശ്യങ്ങൾക്കായി ഗവന്മെണ്ടിന്റെ സമ്മതം കൂടാതെ ചെലവാക്കരുതെന്നും നിബന്ധന ചെയ്തിട്ടുണ്ട്.

ഡിസ്ത്രിക്ട് ബോർഡ് നിരത്തുകളെ കൂട്ടിച്ചേർക്കുന്നതിനു പാലങ്ങൾ ഉണ്ടാക്കുവാനായി മൂലധനമിറക്കി ചെയ്യേണ്ടതായ ചെലവുകൾക്കു ഫണ്ടുകൾ ഉണ്ടാക്കുന്നതിൽ പല ഡിസ്ത്രിക്ട് ബോർഡുകൾ

കം നേരിട്ടു ഭരിയിട്ട് ആലോചിച്ച്, ഡിസ്ട്രിക്ട് ബോൎഡുകളോ അവരുടെ മുൻകൂട്ടിയുള്ള സമ്മതത്തോടു കൂടി സ്വകാൎയ്യ ഏജൻസികളോ നിൎമ്മിക്കയോ പൊളിച്ചുണ്ടാക്കുകയോ ചെയ്യാവുന്ന പാലങ്ങളിന്മേൽകൂടിപ്പോകുന്ന (മോട്ടാർ വണ്ടികൾ ഉൾപ്പെടെയുള്ള) എല്ലാ വണ്ടികളിന്മേലും മൃഗങ്ങളിന്മേലും യാത്രപാദചാരികളുടെ മേലും തദ്ദേശ ഗവൺമെണ്ടിന്റെ മേലധികാരത്തിന്നുൾപ്പെട്ട് ചുങ്കങ്ങൾ ചുമത്തുവാൻ ഡിസ്ട്രിക്ട് ബോൎഡുകൾക്ക് സാദ്ധ്യമാക്കേണ്ടതിന്നായി ഒരു നിബന്ധന ചേൎത്തിട്ടുണ്ട്. തദ്ദേശ ഗവൺമെണ്ട് നിശ്ചയിക്കാവുന്ന കാലത്തും നിരക്കുകളിലും മാത്രമേ ആ വക പാലങ്ങളുടെ മേൽ വെച്ച് ചുങ്കങ്ങൾ വസൂലാക്കാവൂ എന്നും നിബന്ധനയുണ്ട്. സ്വകാൎയ്യ ഏജൻസി ഒരു പാലം ഉണ്ടാക്കുന്ന പക്ഷം, ആവക ചുങ്കങ്ങൾ ചുമത്തിയതു ഹേതുവായുണ്ടായ ആദായം അങ്ങിനെയുള്ള ഏജൻസിക്കു കൊടുക്കേണ്ടതാണെന്നു നിബന്ധന ചെയ്തിട്ടുണ്ട്.

ഈ ഉദ്ദേശങ്ങളെ സാധിപ്പിക്കുവാൻ വേണ്ടി 1931 ലെ മതിരാശി മോട്ടാർ വണ്ടി നികുതി ആക്ടു, 1919 ലെ മതിരാശി സിററി (പട്ടണ) മുനിസിപ്പാൽ ആക്ടും, 1920 ലെ മതിരാശി ഡിസ്ട്രിക്ട് മുനിസിപ്പാലിട്ടീസ് ആക്ടും 1920 ലെ മതിരാശി തദ്ദേശ സഭായോഗ ആക്ടും ഭേദപ്പെടുത്തേണ്ടതാവശ്യമായിരിക്കുന്നു. വല്ല കൊല്ലത്തിലും പോരാതെ വരുന്ന സംഖ്യകൾ പിന്നീടു വരുന്ന കൊല്ലങ്ങളിലെ നികുതിവരവുകളിൽ മിച്ചമായി നില്ക്കുന്ന സംഖ്യകളിൽ നിന്നു തദ്ദേശ യോഗങ്ങൾക്കും ഗവൺമെണ്ടിന്നും കൊടുക്കേണ്ടതിന്നായി മതിരാശി മോട്ടാർ വണ്ടി നികുതി ആക്ടിലെ 10 (3)-ാം വകുപ്പിൽ നിബന്ധന ചെയ്തിട്ടുള്ളതിനാൽ അനേകം കൊല്ലങ്ങളോളം വിവരമായ കണക്കുകൾ വെക്കേണ്ടിയിരിക്കുന്നു. സാമമായ വല്ല മിച്ചവും ഉണ്ടാകുമെന്നതു തീരെ അസംഭാവ്യമായിരിക്കകൊണ്ട്, "പോരാതെ വരുന്ന സംഖ്യ അതിൽപിന്നെ ഏററവും അടുത്തുവരുന്ന കൊല്ലത്തിലോ കൊല്ലങ്ങളിലോ മിച്ചമായുണ്ടാകാവുന്ന സംഖ്യയിൽ നിന്നു അനുപാതത്തിൽ വകവെച്ചു കൊടുക്കേണ്ടതാകുന്നു" എന്ന് 10 (3)-ാം വകുപ്പിൽ കാണുന്ന വാക്കുകൾ വിട്ടുകളയുവാൻ ആലോചിച്ചിരിക്കുന്നു. എന്നാൽ ഈ ബിൽ നിയമമായിത്തീരുന്നതിന്നു മുമ്പെ തദ്ദേശയോഗങ്ങൾക്കു ഏതേതു കൊല്ലങ്ങളിൽ കിട്ടുവാനുള്ള സംഖ്യ ബാക്കിയായിരുന്നുവോ ആ കൊല്ലങ്ങളിലെ ബാക്കിസംഖ്യകൾ വകവെച്ചു കിട്ടുന്നതിന്നുള്ള അവരുടെ

അവകാശത്തിന്നു മേല്പറഞ്ഞ വാക്കുകൾ വിട്ടുകളയുന്നതു ഹേതുവായി ദൂഷ്യം വരുന്നതല്ല. ഇതു വ്യക്തമാക്കുന്നതിന്നുവേണ്ടി ഒരു പ്രത്യേക നിബന്ധന ഒരു ബില്ലിൽ ചേൎത്തിട്ടുണ്ട്—[(3)-ാം ഖണ്ഡം.] മേപ്പടി ആക്ടിലെ 14-ാം വകുപ്പിൽ വരുത്തിയ ഭേദഗതി ഒരു ബില്ലിൽ അടങ്ങിയ നിൎദ്ദേശങ്ങളുടെ ഫലം ആയിട്ടുള്ളതാണ്. 1919 ലെ മദിരാശി സിററി (പട്ടണ) മുനിസിപ്പാൽ ആക്ടിലും 1920 ലെ മദിരാശി ഡിസ്ട്രിക്ട് മുനിസിപ്പാലിട്ടി ആക്ടിലും 1920 ലെ മദിരാശി തദ്ദേശ സ്വയംഭരണ ആക്ടിലും ഇപ്രകാരം വരുത്തുവാൻ ഉദ്ദേശിച്ചിരിക്കുന്ന ഭേദഗതികളുടെ ആവശ്യം, ആ ആക്ടുകളിൽ 1901 ലെ മദിരാശി മോട്ടോർ വണ്ടി നികുതി ആക്ടിനാൽ ദുൎബ്ബലപ്പെട്ടു പോയ നിബന്ധനകളെ, തക്കതായ ഭേദഗതികളോടുകൂടി രണ്ടാമതും നടപ്പിൽ വരുത്തി, ആ നിമിത്തം മോട്ടോർ വണ്ടികളൊഴികെയുള്ള, വണ്ടികളിന്മേലും മൃഗങ്ങളിന്മേലും ചുങ്കങ്ങൾ ചുമത്തുവാൻ സംബന്ധപ്പെട്ട തദ്ദേശ യോഗങ്ങൾക്കു സാദ്ധ്യമാക്കുന്നതിനാകുന്നു. മേപ്പടി ആക്ടുകളിലെ നിബന്ധനകൾക്കു കഴിയുന്നേടത്തോളം ഐകരൂപ്യം വരുത്തുവാനും ഒരു അവസരം ഉപയോഗപ്പെടുത്തിയിരിക്കുന്നു.

NOTE.—The prices are the averages for each district of the retail prices at the several price-recording stations recorded either at the market on market day or if there is no market, on Friday at the busiest shop in the station. The prices relate to the kind of rice (or other grains) most commonly consumed paid by the person who is buying it for consumption.
